Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Wide-signal bandwidth multi-access channel

Preliminary Class

398

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

This collection of information is required by 37 CFR 1.5. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

**OFFICE OF INITIAL PATENT EXAMINATION – FILING RECEIPT
CORRECTION**

Dear Sir:

The above referenced patent application (10/785,474) claimed priority to U.S. Application No. 09/435,657, filed on November 8, 1999, entitled "Photonic Home Area Network." However, Applicants believe the 09/435,657 patent application incorrectly received a priority filing date of November 8, 1999. The attached documentation, described in greater detail below, will provide a clear basis for an earlier priority filing date of February 29, 1996. As such, Applicants believe the above referenced patent application (10/785,474) should have a priority date of February 29, 1996.

A. Front Page of the 09/435,657 Patent Application

The first paragraph states, "This is a continuation-in-part of U.S. Nonprovisional Application serial no. 08/607,964, entitled Photonic Home Area Network, filed February 29, 1996, to John Tomich, et al., which is incorporated by reference for all purposes."

It is clear that the 09/435,657 patent is a CIP of the parent patent (08/607,964, now 5,983,068) which was filed February 29, 1996. As such, the 09/435,657 patent application should have been accorded the benefit of the earliest filing date which is February 29, 1996. Further, since the above referenced patent application (10/785,474) is a divisional of patent 09/435,657, which is a CIP of 08/607,964 (now 5,983,068), Applicants believe the above referenced patent application (10/785,474) should be accorded the benefit of the February 29, 1996 filing date.

B. Official Filing Receipt For Above Referenced Patent Application (10/785,474)

As can be seen from the Official Filing Receipt mailed on 05/17/2004, the above referenced patent application (10/785,474) is listed as a DIV of 09/435,657.

C. Declaration of the 09/435,657 Patent Application

On page 2 of the Declaration of the 09/435,657 patent application, the benefit of the parent patent (08/607,964, now 5,983,068) is claimed. As such, the 09/435,657 patent application should have been accorded the benefit of the February 29, 1996 filing date. Further, since the above referenced patent application (10/785,474) is a divisional of patent 09/435,657, which is a CIP of 08/607,964 (now 5,983,068), Applicants believe the above referenced patent application (10/785,474) should be accorded the benefit of the February 29, 1996 filing date.

Conclusions

Based on the rationale presented above, Applicants believe the above referenced patent application (10/785,474) should be accorded the benefit of the February 29, 1996 filing date and respectfully request the filing receipt be corrected to reflect this date.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Raffi Gostanian, Jr.", written over a horizontal line.

**DECLARATION AND POWER OF ATTORNEY FOR
PATENT APPLICATION**

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name;

I believe I am the joint inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled

PHOTONIC HOME AREA NETWORK

the specification of which (check one)

- ☐ is attached hereto.
- ☒ was filed on November 8, 1999
as Application Serial No. 09/435,657
and was amended on _____

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, §1.56.

I hereby claim foreign priority benefits under Title 35, United States Code, §119 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:

Related Applications

5 This is a continuation-in-part of U.S. Nonprovisional Application serial no.
08/607,964, entitled Photonic Home Area Network, filed February 29, 1996, to John L.
Tomich, et al., which is incorporated herein by reference for all purposes.

Technical Field

10 The present invention relates to a device for bi-directional routing of data for a
plurality of dissimilar electronic devices, and in particular, to data routing for a plurality of
dissimilar electronic devices from a common data path.
